Reviews

Thorough information! Its this sort of good read. It is actually written in straightforward words rather than confusing. I am just delighted to let you know that this is basically the best book we have read within my personal existence and can be the greatest pdf for actually.

(Dr. Henri Crona II)

Bloomsbury Publishing PLC. Paperback. Book Condition: new. BRAND NEW, The Eye: A Natural History, Simon Ings, * We spend about one-tenth of our waking hours completely blind * Only one per cent of what we see is in focus at any one time * You don't need eyes to see - blind volunteers have been taught to see through their chests Through a spellbinding mix of scientific research, mathematics, philosophy, history, myth, anecdote and language theory, Simon Ings brilliantly unravels the never-ending puzzle of how and why we see in the way that we do. With the help of a beguiling mix of illustrated visual conundrums and enigmas, Ings triumphs with a compelling dissection of the eye's age-old mysteries that is both seriously interesting and interestingly fun.
