

The Body Electric: Electromagnetism and the Foundation of Life

Filesize: 2.6 MB

Reviews

This ebook might be worth a read, and superior to other. It is probably the most remarkable book i have got read. Its been designed in an remarkably straightforward way and it is merely soon after i finished reading this publication where really modified me, alter the way i really believe.

(Alex Zieme DDS)

THE BODY ELECTRIC: ELECTROMAGNETISM AND THE FOUNDATION OF LIFE

WILLIAM MORROW & CO Jul 1998, 1998. Taschenbuch. Book Condition: Neu. 233x166x25 mm. Neuware - The Body Electric tells the fascinating story of our bioelectric selves. Robert O. Becker, a pioneer in the field of regeneration and its relationship to electrical currents in living things, challenges the established mechanistic understanding of the body. He found clues to the healing process in the long-discarded theory that electricity is vital to life. But as exciting as Becker's discoveries are, pointing to the day when human limbs, spinal cords, and organs may be regenerated after they have been damaged, equally fascinating is the story of Becker's struggle to do such original work. The Body Electric explores new pathways in our understanding of evolution, acupuncture, psychic phenomena, and healing. 368 pp. Englisch.
